

Allison R Mason, PhD

MICROBIOLOGIST

she/her | amason30.github.io | 0000-0003-1339-1592 | amason30 | allisonmason

Summary

I’m a microbial ecologist with experience in computational biology and management of multivariate projects. My research encompasses soil microbial ecology and terrestrial vertebrate decomposition. I have experience with multiple programming languages, with an expertise in R and execution of microbiome data analysis and package development. I’m passionate about open source science, reproducible research, and teaching computational skill to individuals of all levels.

Skills and Expertise

Computational	Research	Laboratory
R – R Markdown – R Package Development – Quarto –Git/Github – Conda – Unix/zsh	Soil sampling/Field research – Amplicon Sequencing – Data Analysis/Visualization – Soil microbiome/necrobiome – Metatranscriptomics – Metabolomics – Biostatistics – Reproducible Research – Machine learning	DNA/RNA extraction – PCR/qPCR/RT-qPCR – Cell culture – Fluorometric assays – Cell enumeration – media/solution preparation – Cloning – Gel electrophoresis – Western blot

Experience

Biologist

RESTON MICROBIOLOGY LAB

U.S. Geological Survey

Nov 2024 - Feb 2025

- Conducted laboratory experiments to better understand microbial manganese-cycling in ecosystems impacted by oil and gas production.
- Conducted laboratory experiments to better underdtand microbial suflur-cycling in ecosystems impacted by acid mine drainage.
- Created a center code club to teach early career scientits R language skills.
- Oversaw laboratory operations.
- Developed, managed, and executed data anlysis workflows.

Postdoctoral Research Fellow (remote)

SCHLOSS LAB

Univeristy of Michigan

Sep 2022 - Nov 2024

- Development of an R package for microbiome and multi-omics research/data analytics.
- Project Team Lead, including oversight and management of progress for masters-level bioinformaticians.
- Expanded foundational knowledge of metabolomics.
- Cultivated skills in reproducible research, markdown, git/github, quarto, data analysis.
- Taught computational skills to coding beginners at institutional workshops.

Graduate Research Assistant

DEBRUYN LAB

University of Tennessee-Knoxville

Aug 2017 - Aug 2022

- Conducted DNA extractions and 16S/ITS amplicon sequencing to characterize soil microbial succession during terrestrial vertebrate decomposition.
- Led a project characterizing soil microbial gene expression via metatranscriptomics.
- Managed multivariate datasets while gaining computational skills including Mothur, R, unix, conda, etc.
- Developed and executed methods for soil and fluid samples collection.
- Measured soil physical and chemical parameters via soil extractions and fluorometric assays.
- Managed and collaborated on multiple field experiments: responsible for preparing and executing field sampling.
- Navigated, communicated, and collaborated with interdisciplinary research groups to accomplish grant aims and publication.

Intern (biology)

OHIO WATER MICROBIOLOGY LABORATORY

U.S. Geological Survey

Jul 2015 - Jul 2017

- Handled and prepared water and environmental samples from across the country for various tests such as: enumeration of enterococci, aerobic endospores, and virus plaques (1601 and 1602) and multiple source tracking.
- Analyzed and reported test results.
- Prepared solutions and media and maintained the lab.

Undergraduate Researcher

BORIS-LAWRIE LAB

The Ohio State University

Jan 2014 - May 2015

- Learned about protein-protein interactions to understand a suspected gene splicing product.
- Applied techniques such as cell culture and gene cloning (plasmid and site directed mutagenesis).
- Acquired skills in RT-PCR, western blotting, gel electrophoresis, and maintaining cell lines.

Education

PhD Microbiology

DEPARTMENT OF MICROBIOLOGY

- Advisor: Jennifer DeBruyn

University of Tennessee-Knoxville

Aug 2017 - Aug 2022

BS Microbiology

COLLEGE OF ARTS AND SCIENCES

- Minor: Forensic Science

The Ohio State University

Aug 2013 - May 2017

Teaching and Mentorship

Teaching

Workshop on R, the Unix Shell, & Git/GitHub

U-M CARPENTRIES

Dec 2023

Workshop on R, the Unix Shell, & Git/GitHub

U-M CARPENTRIES

Mar 2023

BIOL160 Cellular and Molecular Biology

UNIVERSITY OF TENNESSEE-KNOXVILLE

Department of Biochemistry &
Cellular & Molecular Biology

Aug 2022 - Jan 2023

BIOL229 General Microbiology Laboratory

UNIVERSITY OF TENNESSEE-KNOXVILLE

Department of Biological Sciences

Aug 2021 - Jan 2023

BIOL229 General Microbiology Laboratory

UNIVERSITY OF TENNESSEE-KNOXVILLE

Department of Biological Sciences

Aug 2018 - Jan 2019

MICR210 Allied Health Microbiology

UNIVERSITY OF TENNESSEE-KNOXVILLE

Department of Microbiology

Aug 2017 - May 2018

Mentorship

Brooke Tally (Honors Undergraduate Student)

DEPARTMENT OF MICROBIOLOGY

University of Tennessee-Knoxville

2021 - 2022

Victoria Beard (Honors Undergraduate Student)

DEPARTMENT OF MICROBIOLOGY

University of Tennessee-Knoxville

2019 - 2020
